FIBERGLASS SWIMMING POOL MANUFACTURER

Hebei Kaixin Fiberglass Co., Ltd. (formerly Hebei Shigu Fiberglass Products Factory) was founded by this family in 1986, steadily embarking on the path of fiberglass production.

To ensure stable, sustainable, and cost-effective fiberglass pool products, we added an automatic production line and CNC machines for mold processing in 2016. This has given us significant control over quality and inventory management. In terms of product development and iteration, this provides us with competitive costs, rapid production, and complete autonomy in manufacturing. Our distributors span more than 10 countries, with annual sales of 3,000 pool systems and engineering projects worldwide.

WHY CHOSE FIBERGLASS POOL

Certificate

Durability: FRP swimming pools are known for their durability and can last for several decades. Unlike concrete pools, they are less prone to cracks and leaks.

Easy Maintenance: FRP pools have a smooth surface that resists algae growth, reducing the need for frequent cleaning and maintenance. Additionally, they do not require resurfacing like concrete pools, which can save you money and time in the long run.

Faster Installation: FRP pools are pre-manufactured and can be installed quickly compared to concrete pools, which require extensive excavation, rebar installation, and concrete pouring.

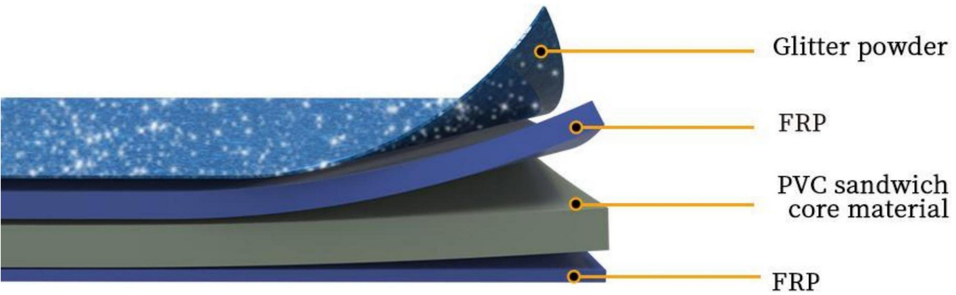
Versatility Versatility: FRP pools come in various sizes, shapes, and colors, making them a versatile option for differ ent pool designs and locations.

Eco-Friendly: FRP swimming pools require less water and energy to maintain, making them a more eco-friendly option compared to concrete pools.

Cost: While the initial cost of an FRP pool may be higher than a vinyl liner pool, it is typically less expensive than a concrete pool in the long run due to reduced maintenance and repair costs.

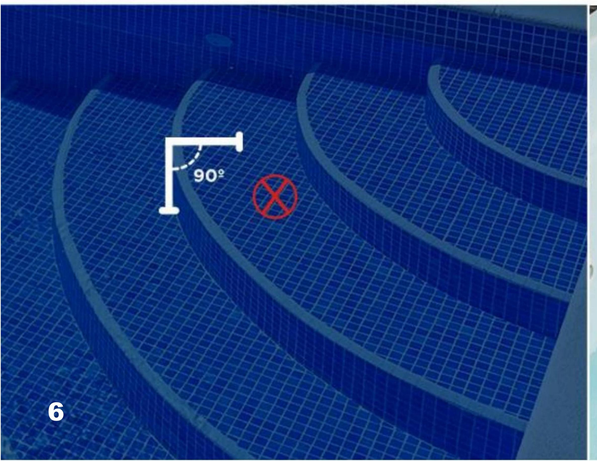
Material Introduction

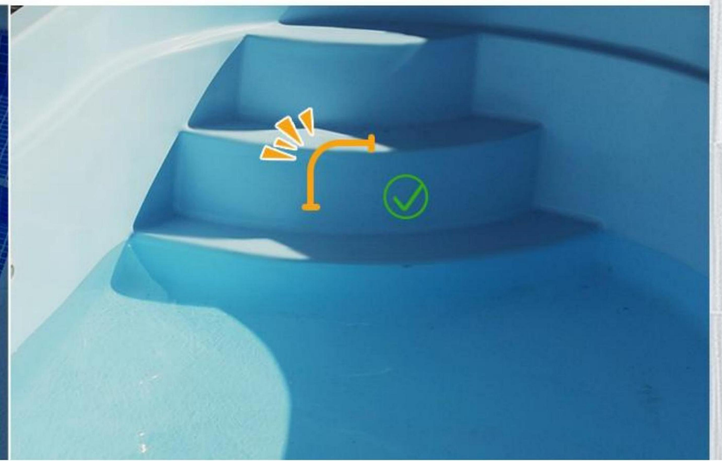
FRP (Fiber Reinforced Plastic) swimming pools, also known as fiberglass pools, are gaining popularity due to their numerous advantages over traditional concrete pools. These pools are constructed using a unique blend of epoxy resin and fiberglass cloth, resulting in a robust structure that rivals the strength of steel. Additionally, the presence of glass components imparts exceptional corrosion resistance, electrical insulation, and thermal insulation properties.



Safety

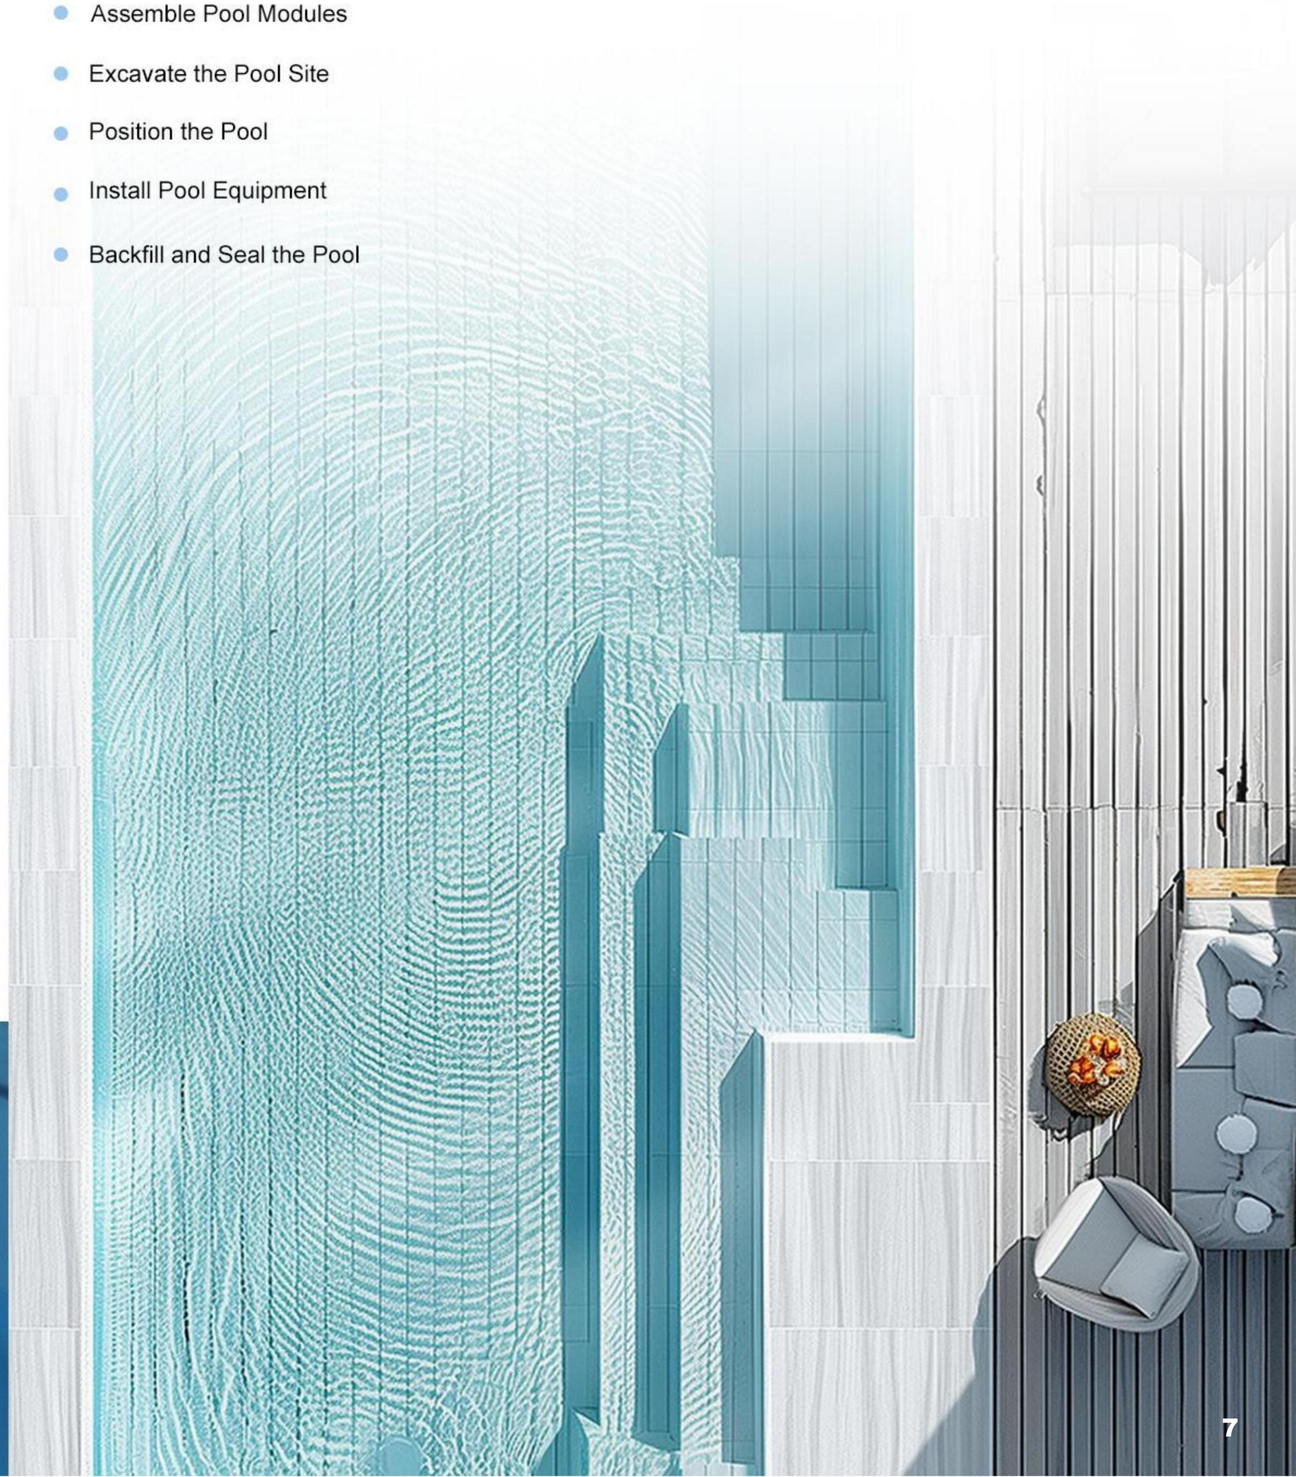
Safety features within your pool can provide a convenient foothold,a place to rest, and an easier way to get in or out of the water. These make fun times safer for everyone.





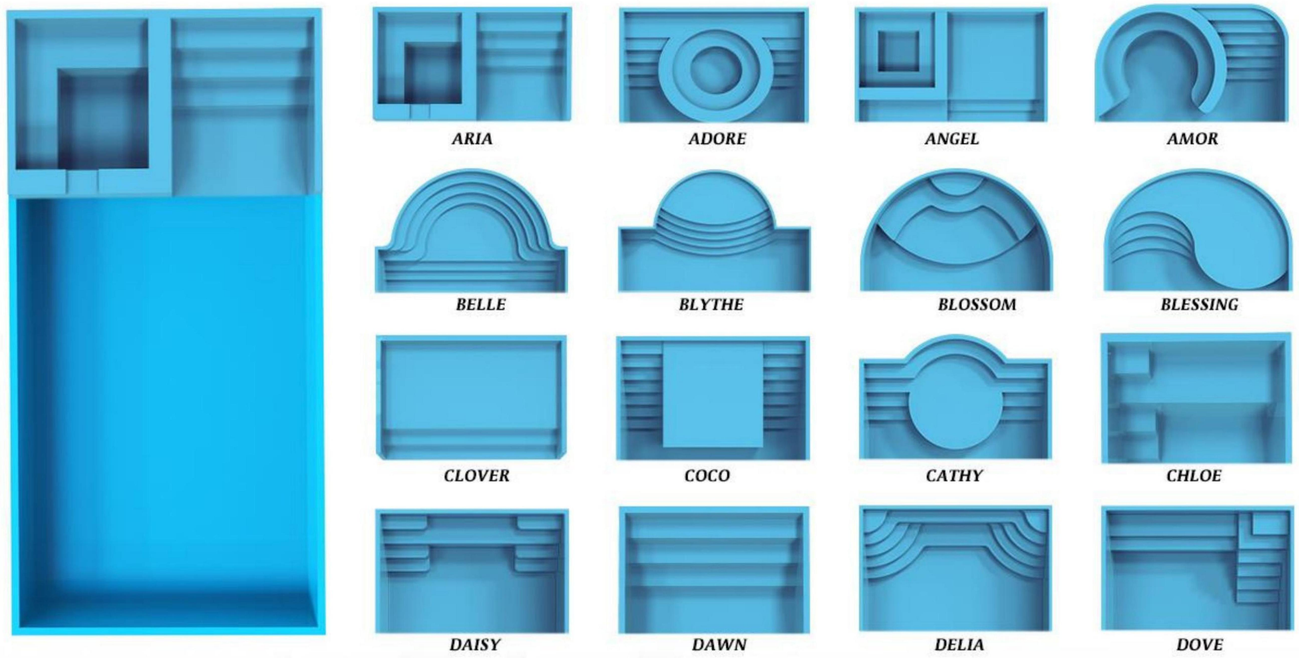
Professional Pool Installation in Less Than a Week!

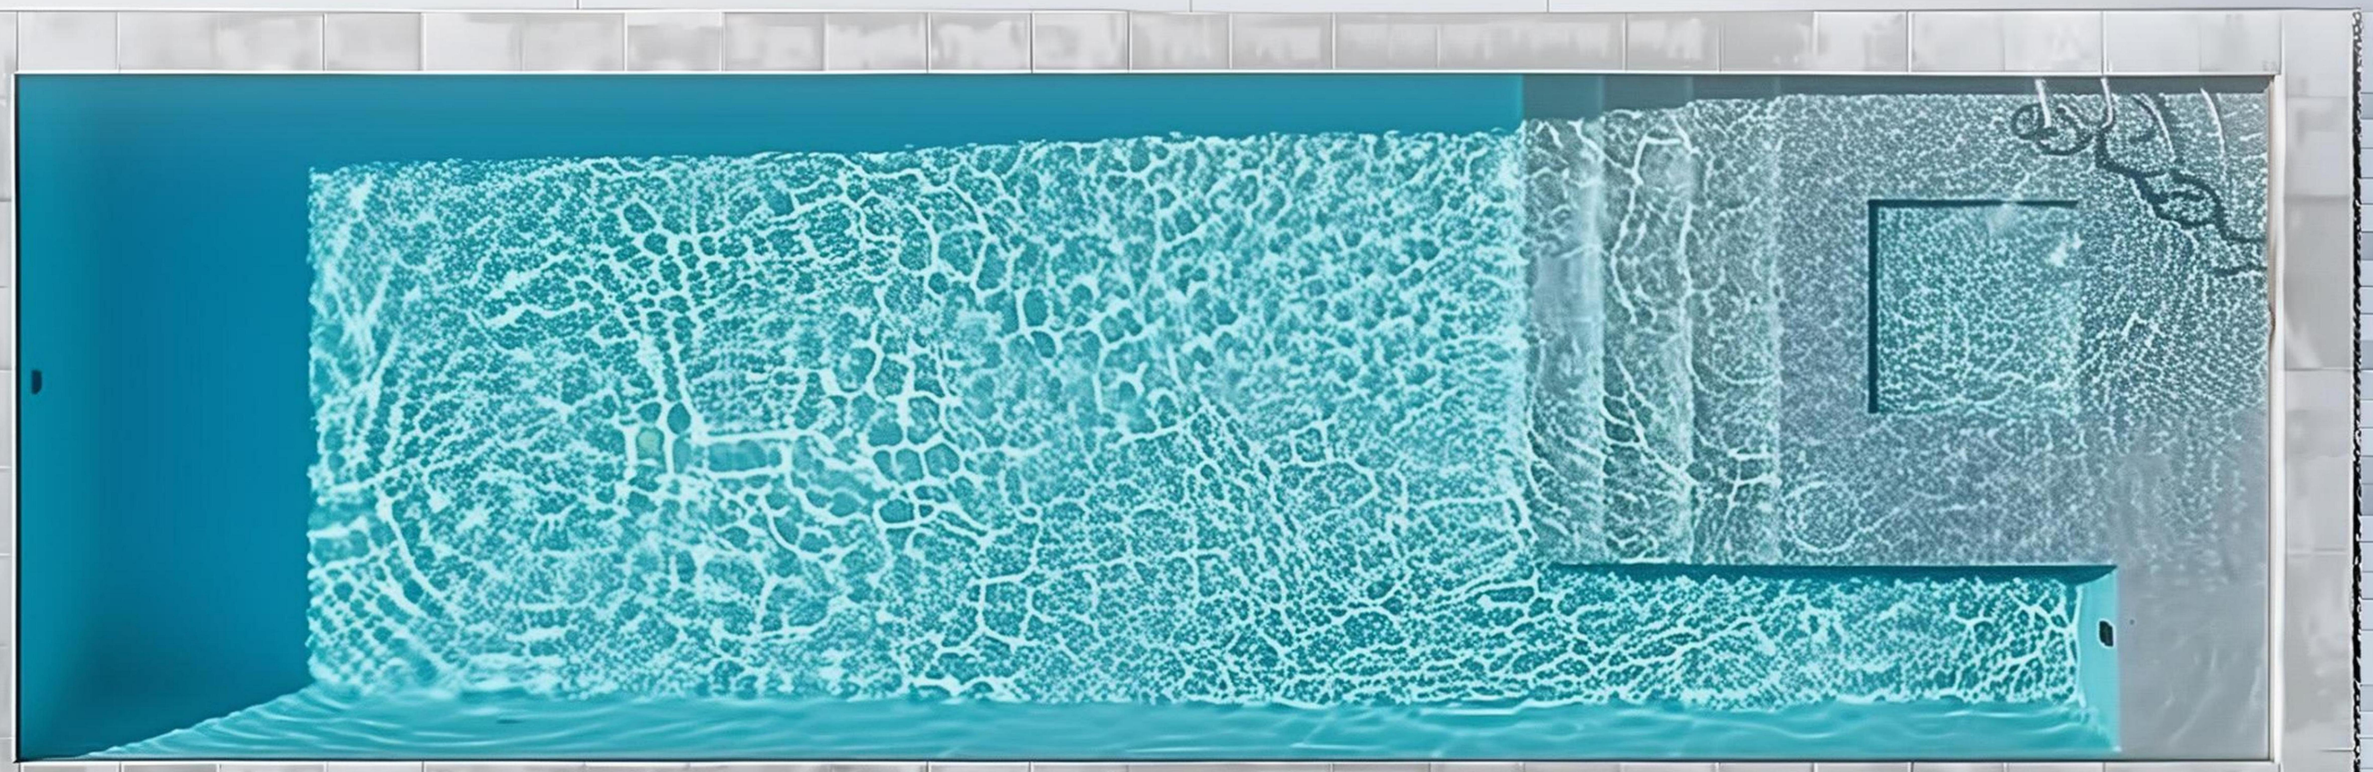
- Assemble Pool Modules
- Excavate the Pool Site
- Position the Pool
- Install Pool Equipment
- Backfill and Seal the Pool



SWIMMING POOL MODULAR TECHNIQUE

- The modular swimming pool adopts specialized fiberglass panels manufactured in factories and assembled on-site, breaking away from the traditional construction method of cement-built pools. It offers convenience in disassembly and assembly, saving time, effort, and costs, with a short construction period.
- It is suitable for various complex environments such as rooftops, balconies, indoors, factories, etc. It can be installed above ground or below ground, and can be customized in square, circular, or various irregular shapes according to specific requirements.
- With a long lifespan and warranty period, it avoids issues like cracking, expansion, and aging deformation commonly found in traditional pools. The assem-





RECTANGULAR WITH BUILT-IN SPA

Manufactured fiberglass swimming pools are one of the most outstanding and customizable ways to transform your dream home into the ultimate outdoor sanctuary or into a indoor luxurious castle, these are pre-endineered fiberglass units that come in various shapes and sizes and are ready to be installed in your yard or roof top. These pools are easy to maintain, durable and have a quick installation process.

MOSAIC WITH BUILT-IN SPA

A modular pool offers adaptability to various pool steps and spa combinations, as well as uniquely shaped pool edges. You have the freedom to choose pool plates that suit your needs. With over 15 years of experience, our quality craft landscaping experts can help you create the backyard pool design of your dreams. We have an extensive inventory of pools and, with our expertise in FRP pools, we ensure that each pool we install is done with precision and skill, guaranteeing a durable and lasting swimming pool.

WHOLE POOL

High Quality: Fiberglass pools are durable and strong, and can withstand harsh weather conditions and ground movements. They are also resistant to fading, cracking and peeling.

Light Weight on Roof: These pools are very light in weight as compared to other kind of swimming pools.

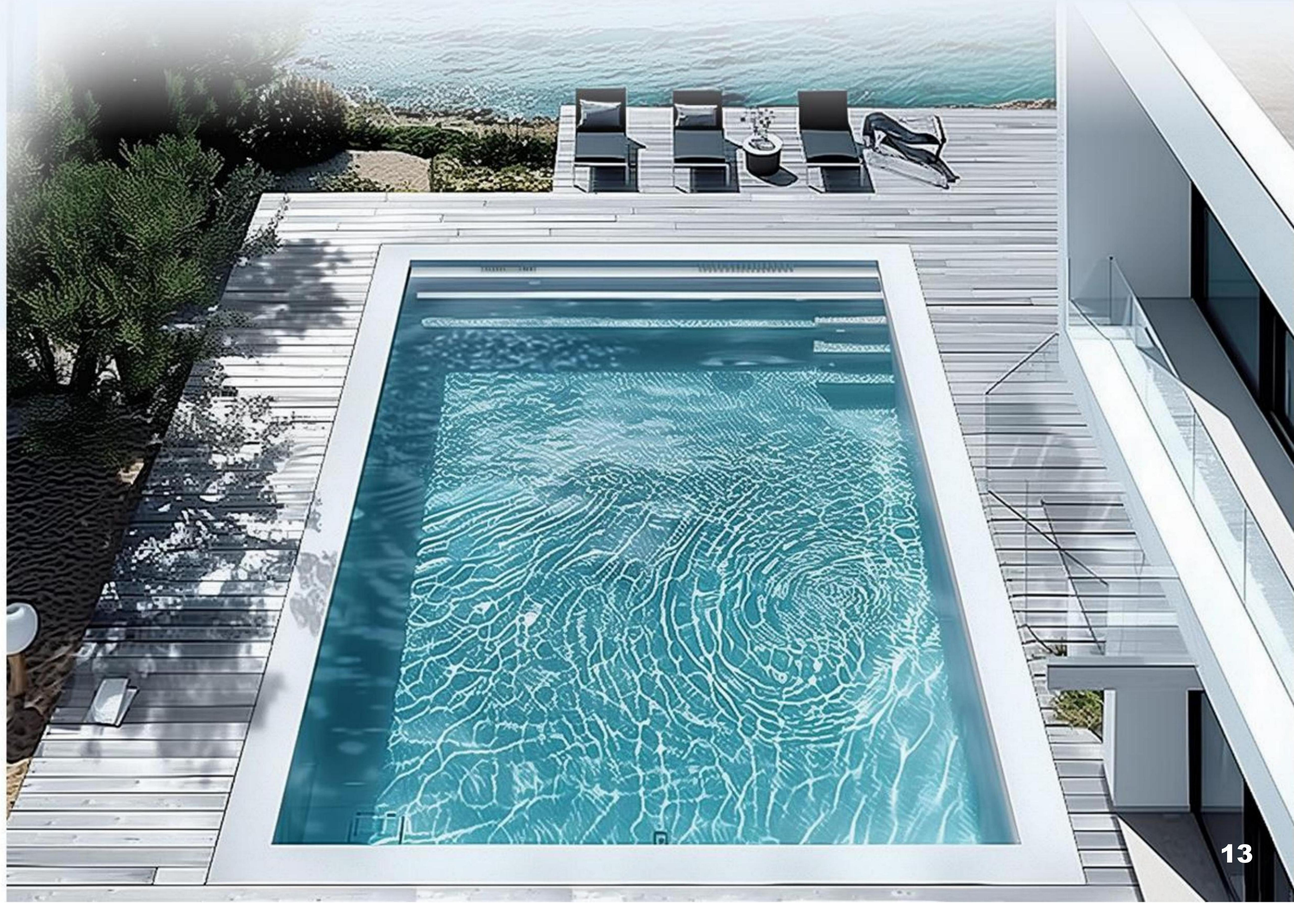
RECTANGULAR COLLECTION

Shapes and Sizes: Fiberglass pools come in a variety of shapes and sizes that can fit any yard and design preference.

Price Benefit: Fiberglass pools have a lower initial cost than concrete pools and a comparable cost to vinyl liner pools.They also have lower lifetime costs due to less maintenance and repairing cost.

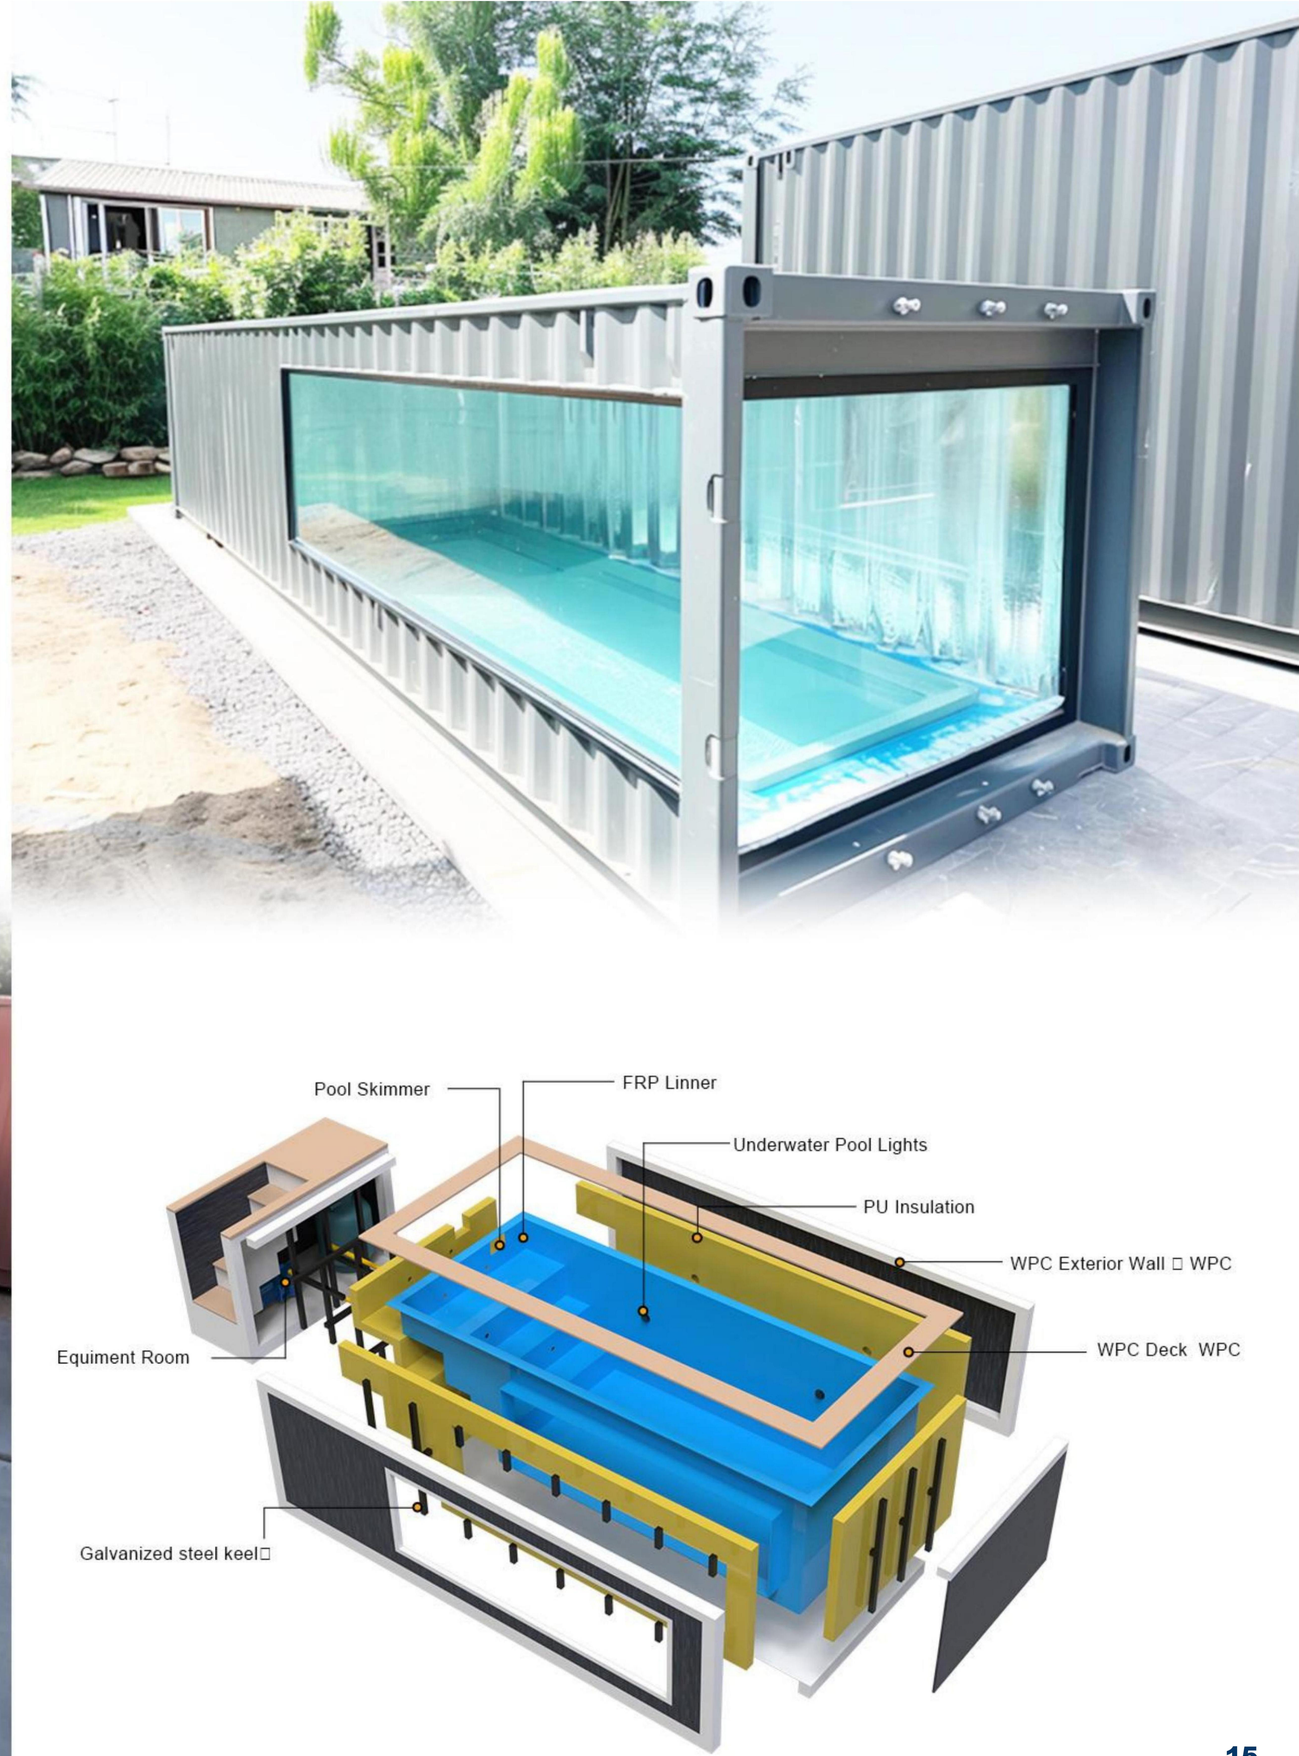
Low Maintenance: Fiberglass pools are easy to maintain because they have a smooth and non-porous surface that resists the algae growth and stains. They also require lesser chemicals and cleaning than other pool types.



Magic Container Pool

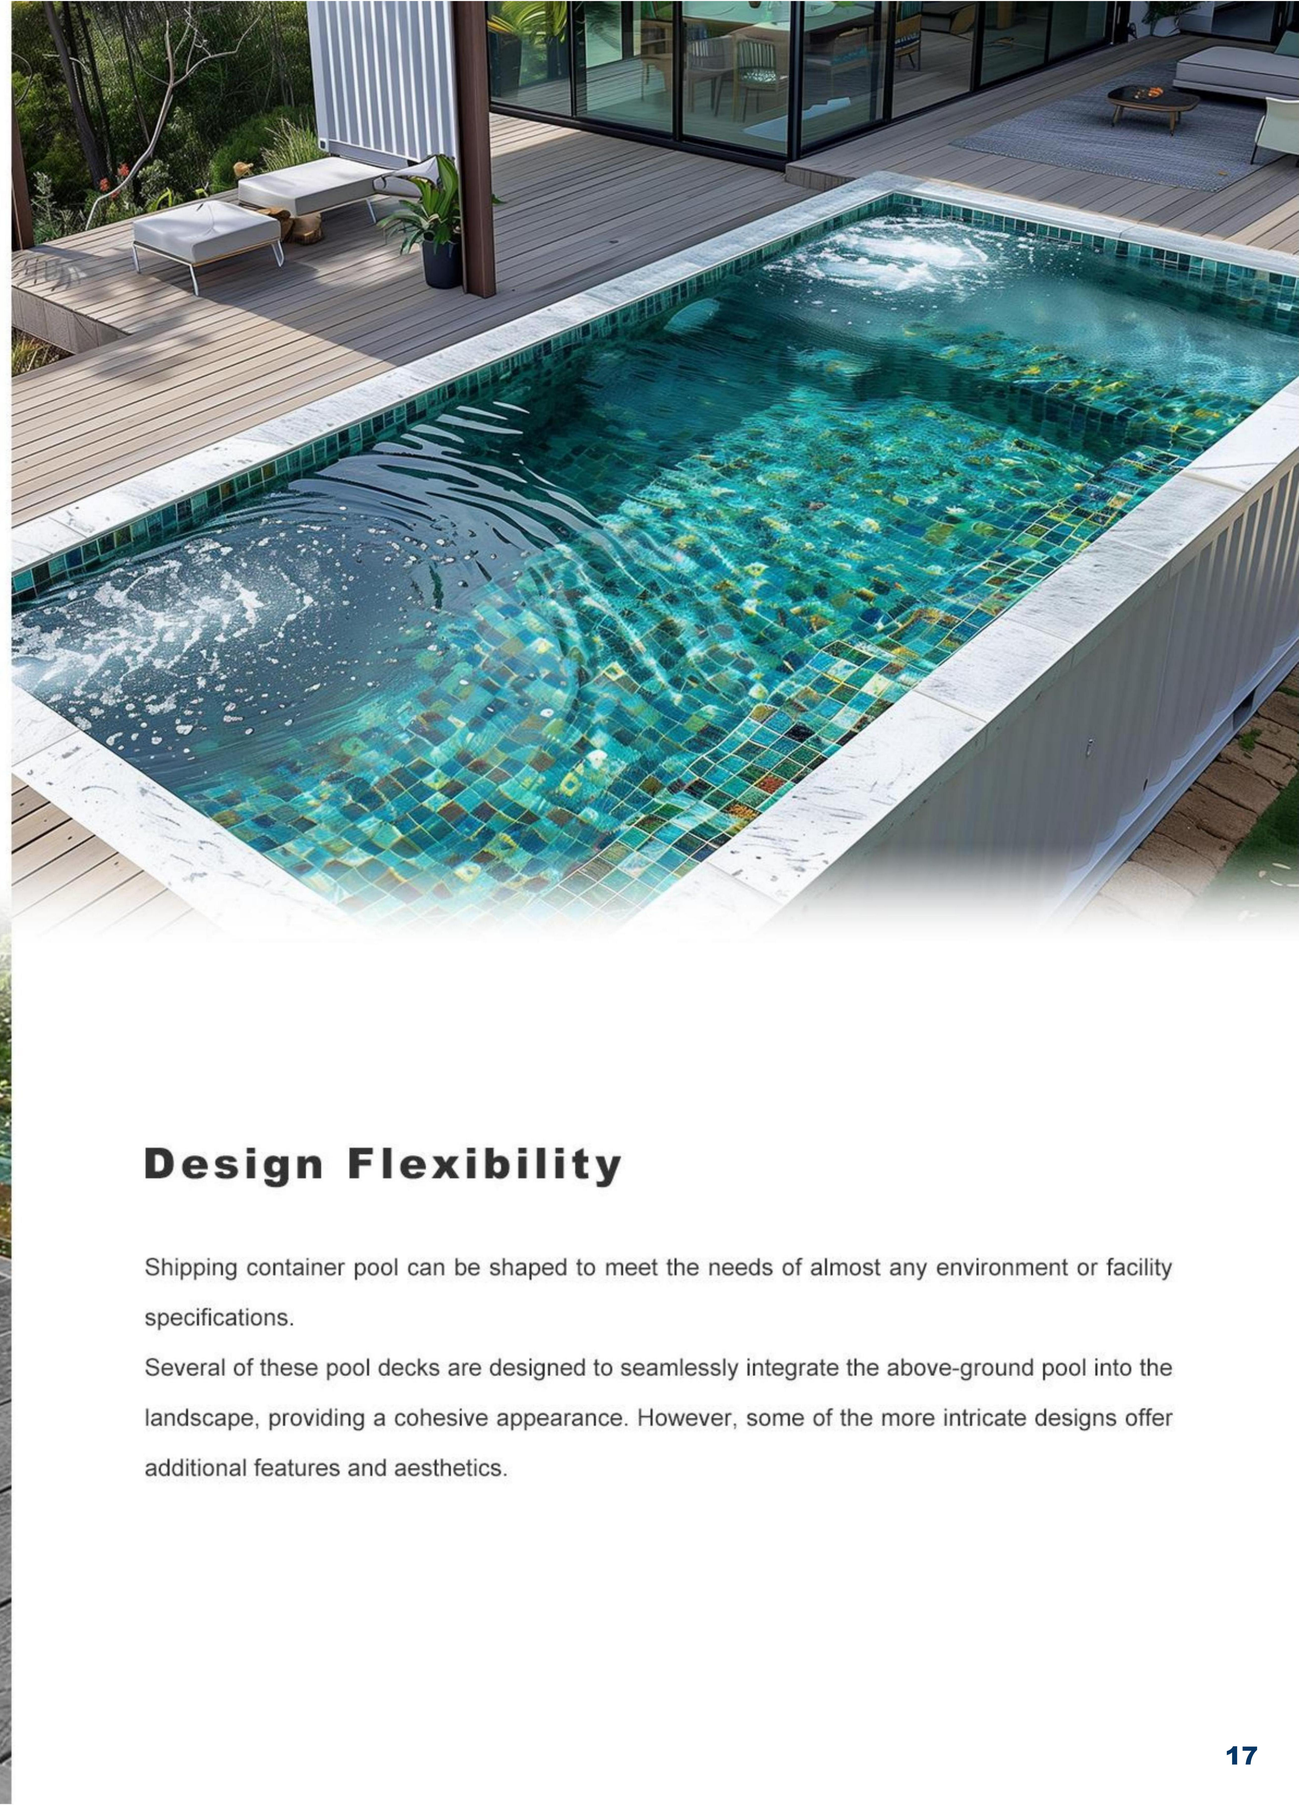
Are you dreaming of having your own private swimming pool but don't want to deal with the hassle of construction, permits, and high costs? Look no further! We are excited to present our innovative solution: the Magic Container Swimming Pool.

Transform any space into your personal oasis with the Magic Container Swimming Pool. Dive into relaxation, entertain guests, and enjoy the countless benefits of having a swimming pool without the traditional limitations. Embrace the freedom to swim anytime, anywhere!



Suitable for Various Sites

By employing flexible and intuitive design along with technical structural support, container pools can be placed in locations typically unsuitable for housing pools, making them a viable solution for properties on sloped terrain and other challenging locations.



Design Flexibility

Shipping container pool can be shaped to meet the needs of almost any environment or facility specifications.

Several of these pool decks are designed to seamlessly integrate the above-ground pool into the landscape, providing a cohesive appearance. However, some of the more intricate designs offer additional features and aesthetics.

They Are Portable Pools

One of the most attractive advantage of shipping container pools is that they’re portable. Unlike traditional pools that are built in ground with concrete filling, our shipping container pools are available for extraction anytime. You don’t have to leave your precious investment behind when you move. If you fall in love with your pool, you can always take it with you. Investing in a container pool will cut back labor costs for installation tremendously, every time you install one.

Quick Install

Place the pool adjacent to a new or existing deck, porch, or landing to enjoy the appearance and functionality of a fully or partially in-ground pool, without the expense and disruption of excavation.

SPECIAL TYPE SWIMMING POOL

Is a manufacturer of fiberglass pools, spas and swimming pools in a wide range of sizes and designs. Pools ranging from 4 feet to 40 feet (length) are available.

PRE FABRICATED SWIMMING POOL
(Any Shape, Any size)

SPECIALLY SHAPED POOLS
SUPPORT CUSTOMIZATION

SPECIAL TYPE SWIMMING POOL

All pools feature a patented pool sandwich structure. Craftsmanship with the highest quality patented technology makes swimming pools involving hand layering and knife layering techniques.

JUMP PARK SWIMMING POOL

Welcome to our latest all fiberglass prefabricated diving pool, the top choice among our customers. With a diameter of 3.5 meters, this round swimming pool provides ample space for family water fun. Its stylish and charming circular design adds a touch of "wow" to any environment.

Multifunctional Design

Our diving pool is designed with versatility in mind, offering three different heights to meet the unique needs of every family:

1.4 meters: Ideal for relaxed water play and lounging.

1.6 meters: Provides more depth for a varied water experience, suitable for moderately challenging water activities.

1.8 meters: Perfect for diving and swimming enthusiasts who require a deeper pool.

For those opting for a deeper pool, we recommend adding a standing ledge on the opposite side of the seating area to create a safe and enjoyable play space for children.

Our all fiberglass prefabricated diving pool perfectly blends functionality and aesthetics: Functionality: Multiple height options, spacious design, and additional safety features ensure our pool meets the needs of different family members.

The stylish circular design not only fits well for family use but also adds unique charm to your yard or outdoor space.

Choose our fiberglass prefabricated diving pool to create unforgettable moments of relaxation and fun for your entire family. Its versatility, spaciousness, and stylish circular design make it the ideal choice for water entertainment. Contact us now to learn more, and let us help you build the perfect pool of your dreams.

SWIMMING POOLS SURFACE

Elegance in your garden.

Overflowing above ground pools, with an elegant white design and a minimalist air. Without the need for excavation or complex installation processes, these pools are the perfect item for your garden or terrace. Their straight lines and avant-garde design together with the complementary external modules make them an exquisite piece of garden furniture. These modern pools capture the essence of water to bring it to your comfort zone and shape a distinguished and timeless piece of furniture.

External module - Supplementary unit.

The outdoor module is the perfect complement to your super pool. These modules will make your pool a space for you to relax, you can sit or lie down in the sofa module with mattress or recliner, place your drinks and snacks in the tabletop module, or access the pool easily via the staircase module. You also have the freedom to set your locations, as they are self-contained and mobile.
